REPORT
OF THE BOARD OF DIRECTORS
on 31.12.2019

Annual report according: to: Law no. 24/2017 regarding issuers of financial instruments and market operations and ASF Regulation no. 5/2018

Date of the report: 31.12.2019
Name of the trade company: “BERMAS” S.A. Suceava
Company headquarters: Scheia, str. Humorului, nr.61, Suceava county
Phone / fax no: 0230/526543; 0230/526542
Tax Identification Number: RO 723636
Registration number with the Office of the Trade Register: J33/37/1991
Regulated market: Bucharest Stock Exchange
Share capital subscribed and paid up: 15.087.134 lei
Main characteristics of the securities issued: Shares issued in dematerialized form conferring equal rights to their holders.

1. ANALYSIS OF THE ACTIVITY OF THE TRADE COMPANY

1.1.a) Description of the basic activity of the trade company

b) S.C. “BERMAS” S.A. Suceava was established by virtue of the Government Decision no. 1353 / 27.12.1990 from the Beer and Malt Enterprise of Suceava, is registered with the Trade Register under no. J33/37/1991, Tax identification number RO 723636 and is based in Scheia commune, str. Humorului nr. 61 Suceava, its main object of activity consists in the production and trading of beer, of malt and their by-products, activity that will be performed in the future too without significant changes.

c) During 2019 there was no merger or reorganization procedure of any kind.

d) During the year 2019, fixed assets representing technological equipment and machinery were purchased for the modernization and technologization of the production units, of the boiling section and the Frig-Aer Plant, part of the investment program approved by the Extraordinary General Meeting of Shareholders on April 16, 2019. Thus the boiling and filtration facilities of the beer were purchased including the CIP system (automatic washing in the circuit) for the boiling section and 2 (two) evaporative capacitors for the Frig-Aer Plant. The total value of the contracts concluded with the suppliers for the mentioned equipment is 962,000 EURO, plus design, construction-assembly costs, etc. Investments are underway, with a term of commissioning in the third quarter of 2020. The financing is provided in a proportion of 45% of bank loans according to the Decision of the EGMS / 16.04.2019, the company contracting a medium-term loan (3 years) in amount of 2,500,000 lei, and the difference on own sources.

The outputs of patrimony fixed assets were amounted to 210.89 lei fully depreciated and the inputs of fixed assets into patrimony were amounted to 712.374 lei.

e) Description of the main results following the evaluation of the activity

1.1.1 Elements of general evaluation of the company

The net turnover registered in 2019 is 32,755,31 lei, up 8.37% as compared to the previous year.

The gross profit obtained in 2019 is 2,292,33 lei, increasing by 19.55% compared to the previous year.

The net profit for the year 2019 is 1,958,209 lei, increasing by 19.44% compared to the previous year.

The net turnover registered in 2019 is 32,755,31 lei, up 8.37% as compared to the previous year.
The prices for raw materials depend on several factors: the harvest of that year, the internal and external economic circumstances, the demand on the internal and external markets, etc. and cannot be anticipated, these ones being determined each year on the market based on market demand and supply, the supply sources being selected according to the advantages in terms of quality / price ratio. In this context the company is freely operating on a competitive market.

Regarding the main materials required in the production of beer and bottling process (labels, bottles, crates, caps, kiselgur) they are purchased from suppliers in the country or abroad.

In all cases the company operates on a free competitive market and there is no significant reliance on a specific supplier or group of suppliers whose loss would have a major impact on the provision of the necessary supplies for the production of beer.

### 1.1.4. Evaluation of the sales activity

**a)** Compared to the previous year, sales decreased by 4% (in volumes), a trend that the beer market in general registered in 2019.

Regarding the evolution of the specific market, after a sustained growth period, the total volume of marketed beers registered a decline in 2009-2011. 2008 saw a peak in consumption on the Romanian market of around 20.6 million Hl. In 2012, beer consumption was of c.c.a. 18 million Hl.

Further, in the years 2013 and 2014, consumption decreased slightly, with consumption in 2015 stabilizing at a constant level in 2016, the increase was 2%, in 2017 by about 4% and in 2018 by 3%.

Brewing industry presents the features of an oligopolistic industry with high barriers to entry to the market and vertical differentiation, the general feature of the brewing sector being represented by excessive capacity which creates prerequisites for the pressure on price levels.

SC "BERMAS" SA is the only local factory in the brewing industry that has continued its activity based on the old technical and technological structure, succeeding, by the modernization of production workshops and by making more effective the activity carried out, to be present on the market and consolidating its market share.

Further, in 2020 the Romanian beer market will be influenced by economic-fiscal factors, weather conditions e.t.c. and the beer sales of SC "BERMAS" SA are estimated at an increase of 5% considering:

- Our stable commercial relations with customers;
- The high quality types of beer at affordable prices sustainable on average term;
- An appropriate business strategy for the promotion of products and prudent in terms of budgets for this purpose aiming to achieve a reasonable profitability;
- A proper management able to manage resources in a corresponding manner;
- The higher level of technical equipment of technological processes that ensure undeniable quality of the types of beer and the food safety.

The company had entered into sales agreements in 2019 with 40 beer distributors and wholesalers.

For 2020 the company has contracted the entire quantity of beer for sale according to the production plan.

**b)** Currently on the Romanian market, there are four large producers representing groups with international presence in the beer sector and a number of two local producers who have developed large production capacities all of them owning about 93% of the Romanian beer market, the difference of 7% being owned by the small and medium producers of which BERMAS SA also belongs.

The massive production concentration of the beer industry sector in Romania has produced a major imbalance between the competitiveness of the two market segments.

To cope with competition, SC "BERMAS" SA as independent producer of beer with a capacity below average must permanently identify opportunities for business efficiency and profitability while maintaining and developing the market segment won.

**c)** The Company has no significant dependence to a customer or group of customers whose loss would have a major impact on its income.

### 1.1.5. Evaluation of the issues related on the company’s employees

**a)** S.C. “BERMAS” S.A. Suceava had in 2019 an average number of 204 employees compared to 199 over the previous year mentioning that the number and structure of employees is correlated with
the number of employees necessary for the volume production and ancillary activities: maintenance, repair, delivery and distribution, etc.

The level of education of the employees is as follows: 32 have higher education, 33 with secondary education, 120 with vocational training and qualification and 19 are unqualified workers.

The company’s management is conducted by a Board of Directors consisting of three members who were appointed during the General Meeting of Shareholders on March 22, 2018.

The executive management was assigned to a number of four managers namely: the General Director, the Economic Manager, the Technical Manager and the Commercial Manager.

b) The relationship between MANAGEMENT and EMPLOYEES is based on honesty, loyalty, good faith, teamwork, taking decisions after consulting all decision-makers, based on the Collective Labour Agreement and the Rules of Procedure.

The company has a trade union affiliated to the Food Industry Federation.

The rate of union membership of workers is 95%.

The social climate is stable now which is supposed to be a good premise for the future too.

1.1.6. **Evaluation of environmental impact issues**

The company has obtained all authorizations and permits required by the law.

There is no major impact on the environment and no litigation related to the infringement of environmental protection legislation.

1.1.7. **Evaluation of the research – development activity**

The Company has not conducted nor has allocated budget for the research – development activity considering its object of activity.

1.1.8. **Evaluation of the risk management activity**

The company operates on a free competitive market, being exposed to normal risks from that point of view. There is no major or significant exposure in terms of prices or liquidity.

The company implements a risk management system, process covering the identification, analysis, management and monitoring of the risk it is exposed to.

The price risk - there is a permanent monitoring of this risk taking into account the market the company operates on. In fact the company applies and will apply in the future sale pricing according to the price of raw material and of other cost elements which have a share of over 10% of the total production costs.

The credit risk - the company has in progress and will appeal to attracted resources to partially finance the inventories of raw materials and semi-products. The cost of resources is negotiated and generally sized in relation to the reference rates on the financial market so as to be sustainable based on the contract terms. Potential changes in interest rates are also taken into account.

The liquidity risk - there is a constant concern for maintaining the immediate liquidity at supra-unitary level.

The cash flow risk is daily monitored by weekly and monthly forecasts of receipts and payments. The Company applies trade credit policy in relation to traditional customers and correlates the collections with the maturity of payments (suppliers, budgets, salaries).

1.1.9. **Perspective elements of the company's activity**

(a) The company’s liquidity could be impaired over the year 2020 by a series of events or uncertainty factors such as:

- A unfavorable conjuncture of the market that would lead to the inability to face competition; there are vertical agreements and concerted practices on the beer market, most distribution agreements containing "vertical restraints" namely certain clauses restricting competition such as exclusive distribution, non-competition clause, exclusive purchasing, restrictions on the sale price;

- An unfavourable year from the agricultural point of view with poor harvests for basic raw materials used in brewing process that would lead to higher prices for barley and hops;

- The possible further increase in fuel, energy and natural gas prices with major implications for production costs also taking into account the duration of the malt and beer production cycle based on classical technology which totally implies (malt + beer) about 120 days;
• The entry into default of some customers - distributors of the company as a result of limiting
their access to credits for the support of their commercial activity that would increase
commercial risks to collect the price of products in insolvency - bankruptcy proceedings;

(b). In 2019, the capital expenditures amounted to 712,374 lei, plus an ongoing investment in
progress of 3,834,387 lei, with a significant impact on the liquidity of the company.

In order to achieve the 2020 sales program we will make major purchases of refrigeration
showcases, beer dispensers, couplings, reducing gears, brewery sets in order to equip the commercial
and advertising logistics network: umbrellas, tents, banners, customised light boxes, mugs and other
advertising materials that will be offered to customers in order to promote the sales of beer, including
product promotions as such, occasional or regular. In addition we will purchase the necessary beer
bottling and delivery packaging, the total value of which is estimated at approximately 2,200,000 lei.

In order to provide the resources needed to finance the production and investment activity the
company will aim to fulfil the sales program and the proper use of by-products and other goods such as
current assets accordingly.

(c). The income from the basic activity will not be significantly affected in 2020 than due to
normal risks arising from the economic and taxation regime applicable to the company.

2. TANGIBLE ASSETS OF THE COMPANY

2.1. Location and description
S SC "BERMAS" S.A. Suceava owns 30,588 sqm of land.
The said surface is divided as follows:
- Built area – 14,687 sqm;
- Free area – 15,901 sqm.
The occupation rate of the land is 48%.
The buildings are classified into:
- Industrial plants exhibiting a variety from the point of view of constructive variant and the
type of construction;
- Storage silos;
- Warehouses, metal barracks, outdoor platforms;
- Administrative buildings.
The production activity of the company is done with direct access to DN 17 and the Suceava
West railway station is 1 km far from the factory.
The company comprises four production sectors, auxiliary sectors and functional offices.
The production sectors:
- MALTING - compact building formed by silos, the machine department, connecting
body, soaking body and germination body in which the malting process is carried on. The sector is
equipped with a Wanderhaufen-type barley - two-row barley supply, sorting, soaking and
germination plant with stripping and drying equipment.
- BOILING - compact building in which is conducted the process of obtaining wort by
brewing whose main operations are: grinding, moulding and saccharification, wort filtration, boiling
of wort with hops, clearing and cooling of wort.
- FERMENTATION - compact building included in the boiling body. In this sector beer
fermentation takes place in tanks and followed by finished beer filtration inside a Steincker filtration
plant.
- BEER BOTTLING IN BOTTLES AND KEGS - compact building in which beer is
bottled in 0.5l bottles on a KRONES bottling line (nominal capacity 25,000 bottles / hour) and in kegs
by means of three fully automated bottling and pasteurizing modules purchased from Germany with a
capacity of 180 KEGS / h.
- AUXILIARY SECTORS:
  • Thermal plant;
  • Mechanical workshop;
  • Electric workshop - AMC;
  • Cooling- air plant;
  • Maintenance (masonry - carpentry).
- FUNCTIONAL OFFICES - within the administrative building - separate building.
2.2. The wear of buildings is a normal one as a result of their operation, mentioning that there have been performed maintenance works, interior and exterior protection, increase of the thermal comfort and adaptation to the requirements of the production process, but they still need maintenance and repair works in the buildings where technological and auxiliary processes take place, respectively the restoration of roof isolations as a result of their exposure to weather over the year, modernisation and maintenance of the interior spaces.

2.3. There are no problems related to ownership of tangible assets of the company.

3. MARKET SECURITIES ISSUED BY THE COMPANY

3.1. The shares of SC "BERMAS" S.A. are registered, listed and traded on the Bucharest Stock Exchange, with the symbol BRM. The activity of keeping the register is performed by SC "DEPOZITARUL CENTRAL" SA Bucharest under the agreement signed in this respect.

The share capital subscribed and paid up is amounted to 15,087,134.30 lei, divided in 21,553,049 registered shares of 0.70 lei each.

One share held entitles the shareholder to one vote in the general meeting.

There are no set restrictions on the transfer of securities, such as limitations on holding securities or the need to obtain the approval of the entity or of other holders of securities of the company.

There are no shareholders with special control rights, all shares conferring the same rights to shareholders.

The shareholders’ structure on 31.12.2019 according to the consolidated Register transmitted by SC "DEPOZITARUL CENTRAL " SA is as follows:

<table>

The financial statements of the company have been prepared in accordance with: the Accounting Law no. 82/1991, as subsequently republished, the Order of the Minister of Public Finance no. 881/2012 on the application by companies whose securities are admitted to trading on a regulated market of International Financial Reporting Standards, International Financial Reporting Standards (IFRS), Financial Reporting Standards (IFRIC) and the Standing Interpretations Committee (SIC) adopted by the European Union and the Order no. 2844 / 12.12.2016 approving the Accounting Regulations compliant with International Financial Reporting Standards.

6. CORPORATE GOVERNANCE

SC BERMAS SA is administered under a unitary system in accordance with the provisions of the Articles of Incorporation and of the Law No. 31/1990 as subsequently republished and amended.

The corporate governance structures of SC BERMAS SA are represented by the Board of Directors and the executive management.

SC BERMAS SA is administered by a Board of Directors consisting of 3 members, individuals elected by the Ordinary General Meeting of Shareholders. One of the directors must be independent and the majority of the directors are non-executive directors. The duration of their mandate is of four years.

The directors’ obligations and responsibilities are governed by the contract of mandate in accordance with the Law 31/1990 as subsequently amended and supplemented, with the Law 24/2017
as subsequently amended and supplemented, the applicable regulations of A.S.F. and with the provisions of the Articles of Incorporation.

The Board of Directors of SC BERMAS SA meets at least once every three months. The Board of Directors approves the delegation of powers and / or the right of representation for other directors or employees of the company, setting their limitations too.

During the meetings of the Board of Directors the following are analysed basis on the submitted materials:

- In the production area: the achievement of the production program per quarters and per total year, the programs of maintenance and repair, the need for raw materials barley and hops for each year and the instructions for purchasing them, the consumption norms specific to the production of beer and malt, the manoeuvres and workloads for the basic and auxiliary activity
- In the commercial area: the achievement of the sales programs quarterly and preliminary, the situation of the uncollected invoices, the equipment of customers with packaging and logistics, contract terms and commercial and financial facilities, promotions
- In the economic and financial area: the achievement of indicators in the budgeted revenues and expenditure, quarterly reports, the semi-annual report, the annual report, the general inventory situation of the assets, etc.
- In the field of investments: realization of the investment program established by the AGEA for the current year, insurance of sources of financing, negotiation of loan conditions with the financing banks, etc.

The Board of Directors delegates the management of the company to a number of 4 executive managers, individuals, appointing the General Manager from among them. The General Manager is also the President of the Board of directors. Managers are responsible for taking all measures related to the management of the company, within the limits of the object of activity and complying with the exclusive powers reserved by law or by the Articles of Incorporation, the Board of Directors and the General Meeting of Shareholders.

The General Meeting of Shareholders of SC BERMAS SA meets at least once a year, during the 4 months after the end of the financial year and has the main tasks set by the Articles of incorporation. The General Meeting of Shareholders is convened by the Board of Directors whenever needed or at the request of shareholders representing 5% of the share capital. During 2019, the General Meeting of the Shareholders met only once.

Following the launch in September 2015 of the new Code of Corporate Governance of the Bucharest Stock Exchange, SC BERMAS SA has analysed the company's compliance with the new Code and it is currently implementing certain provisions. The shareholders of the company were informed in the annex to the Report of the Board of Directors dated 31.12.2018 regarding the compliance status with the provisions of the new Corporate Governance Code of B.V.B

The necessary conditions for informing the shareholders on the financial results and on all relevant aspects of the business conducted were provided through the Company's website and Secretariat of the Board of Directors.
